EXPERIENCE

Tricode, Nigera — *Front-end dev*

Jan 2023 - PRESENT

I worked as front-end developer at tricode a consulting and brand development company .

Contytube, Remote — *Front-end dev*

Sep 2022 - Apr 2023

Worked as a part-time developer to implement UI/UX designs also collaborated with the design team and the backend team to deliver the final product.

Claret CASA, Nigeria — *Tutor*

May 2023

My job here was to teach computer science and basic tech to high school students during my one year service in the NYSC.

EDUCATION

FP BIDA, Nigeria — *Computer science*

2019 - 2022

I obtained my HND in computer science. Where i learnt not just the basics of computer but also some advance concepts in computer science.

PROJECTS

Extvweb — *Movie app*

My last project also a personal project is a movie repository app that fetches movie details from a giving list of websites and sends them to a telegram channel using telegram bot. The database used is mongodb and it was built with sveltekit. Users can also rate or leave reviews on movies add to their favorite list and also search for movies to.

SKILLS

Sveltekit.
